

Sean Wallace

CPA | Shareholder

Sean joined the Perkins & Co tax department in 2011 and is a member of our Manufacturing and Distribution, Creative Services, and Technology Practice Groups.

Sean's range of experience and expertise includes pre-revenue and start-up companies. This includes bookkeeping and consulting services all the way through annual compliance and ASC 740 accounting for income taxes for large corporate tax clients. However, most of his time is spent with large corporate clients with multi-state tax filing obligations, which involves understanding multi-state taxation for both manufacturing and service based companies.

He also assists small, closely held companies—whose revenues range from less than one million dollars up to four million dollars—with their planning and annual compliance needs.

EDUCATION

Bachelor of Science in Accounting
Bachelor of Arts in Spanish
University of Oregon
